BAGASSE DISPOSABLES

Singer Select Bagasse will meet your takeout and delivery needs every time! Our collection of plates and containers have been tested for strength, offer exceptional stackability, and meet all your design needs with an attractive rim and a clean edge. Additional features like ease of separation, a secure closure, and a thoughtfully designed drip tray make these bagasse containers market leading. Bagasse is also an excellent, eco-friendly alternative to foam. It is a natural material with no dyes and no added PFAs, as well as commercially compostable. With Singer Select Bagasse, you can be kinder to the planet with no sacrifice in performance.

TRASH CAN LINERS

Introducing the ultimate solution for your restaurants waste management needs: our tough and reliable trash can liners. Whether you're handling heavy-duty waste or need flexibility for lighter loads, we have you covered.

- **High Density (HDPE)** - offers unparalleled strength and puncture resistance, ideal for heavy or sharp objects. Suitable for high waste volumes and heavier loads without stretching or tearing, reliable in tough conditions.
- **Low Density (LDPE)** - these liners have greater stretchability and flexibility, making them suitable for lining large or irregularly shaped containers.
- **HEX** - use when the maximum puncture & tear resistance are required for the task. Best choice when uncertain what type of refuse you will collect. Suitable for heavy irregular waste.

BIODEGRADABLE LDPE

Our high-quality liners, made with linear low-density resins, are a smart choice for environmental sustainability. They contain an oxo-biodegradable additive that stimulates photodegradation (UV) and oxidation to reduce the Molecular weight of the plastic film. When exposed to UV light, heat and oxygen, this two-step process breaks down the plastic into small fragments, which are then able to degrade.
