## TRASH CAN LINERS

Introducing the ultimate solution for your restaurant's waste management needs—our tough and reliable trash can liners. Whether you're handling heavy-duty waste or need flexibility for lighter loads, we have you covered.

- **High Density (HDPE)** - offers unparalleled strength and puncture resistance, which is ideal for heavy or sharp objects. Suitable for high waste volumes and heavier loads without stretching or tearing, these liners are reliable in tough conditions.
- **HEX** - use when the maximum puncture & tear resistance is required for the task. Best used when uncertain what type of refuse will be collected. Suitable for heavy, irregular waste.

### BIODEGRADABLE LDPE

Our high-quality liners, made with linear low-density resins, are a smart choice for environmental sustainability. They contain an oxo-biodegradable additive that stimulates photodegradation (UV) and oxidation to reduce the molecular weight of the plastic film. When exposed to UV light, heat and oxygen, this two-step process breaks down the plastic into small fragments, which are then able to degrade.

Gauge	Size	Color	Case	SKU
